

Refrigerated Showcase Specialist - NSW

- **Do you have an inquisitive mind with a natural curiosity for learning and innovating?**
- **Play a lead role as a knowledge expert on refrigerated showcases for one of the most recognisable brands in Australia**
- **Opportunity to bring to life merchandising concepts from concept to delivery**

About us:

The Woolworths Group is a proud, home-grown Australian business, with some of Australia's most recognised and trusted brands including Woolworths, Dan Murphy's, BWS and BIG W. We employ more than 205,000 people and a committed business partner of many thousand local farmers, producers and manufacturers. What are we passionate about? Our customers, our team members, our environment and consistently looking for opportunities to innovate.

What you will do?

Our engineering team sits within our wider strategic Format Development department who are responsible for creating, re-invigorating and maintaining the look and feel of our supermarket business. In this role you will support the Senior Refrigeration Engineer in developing, trialling and deploying best practice showcase engineering.

This role will also see you:

- Provide subject matter expertise on refrigerated showcases and hot food displays
- Support the development, trial and deployment of showcase engineering best practices to optimise energy consumption and drive sustainable designs
- Manage key relationships with showcase manufacturers to bring to life merchandising concepts
- Support product development from initial business brief, store trials, post implementation reviews through to product standardisation
- Work in conjunction with Woolworths Refrigeration Field Engineers to support store showcase layouts and design
- Support showcase scope development for new store builds and renewal projects

Who you are?

- You have a background in commercial refrigeration, with exposure to showcase design
- You either have Tertiary qualifications in Mechanical Engineering preferred, OR Trade qualifications in Air Conditioning & Refrigeration, HVACR
- You have project management experience with exposure to budgets
- Commercial refrigeration experience in supermarkets, FMCG or an Industrial environment will be highly regarded
- High level of verbal and written communication skills
- Strong stakeholder engagement skills with the ability to partner with stakeholders to drive outcomes

We are driving inclusion and diversity as Ways of Working. If you meet a number of requirements (and not all), we encourage you to submit your application.
